Serfiçe

Software Engineer

PROFIL

I am a fourth-year computer engineering student at Balıkesir University, where I completed my coursework as the second-highest ranked student in my class. Although I have not yet officially graduated due to incomplete internships, my primary focus is on front-end development. I have intermediate-level proficiency in utilizing technologies such as HTML, CSS, JavaScript, ReactJS, SQL Server, and Tailwind CSS. Additionally, I have entry-level skills in C#, Python, and Android Studio.
