## EDUCATION

**Balıkesir University**  
**Computer Engineering**

2020 - 2024

**3.27 / 4 GPA - Ranked 2nd in the department**

## SKILLS

- Software Development
- Database Management
- Project Management
- Problem Solving
- Communication & Teamwork

## PROFIL

I am a Computer Engineering graduate from Balıkesir University, ranking second in my class with a GPA of 3.27. I have a strong passion for software development, focusing on front-end and full-stack web applications.

Throughout my academic and project-based experiences, I have gained expertise in ReactJS, JavaScript, Node.js, MySQL, Python and Firebase. I have developed multiple real-time data-driven applications using WebSockets and cloud services.

I enjoy problem-solving, optimizing algorithms, and designing scalable web applications. I am highly adaptable, eager to learn new technologies, and experienced in team collaboration using Git, Agile & Scrum methodologies. My goal is to continuously improve my technical and analytical skills while contributing to innovative projects.

## WORK EXPERIENCE

Web Development Intern

August 2024 - September 2024

**IWT Dijital Medya**

- Designed and developed responsive web interfaces to improve user experience.
- Used HTML, CSS, JavaScript, and ReactJS to create modern UI components.
- Collaborated with the design team to enhance web applications for clients.

R&D Intern -

Web Application Development

September 2024 - October 2024

**TESCOM UPS & Energy Solutions**

- Developed a real-time monitoring web application for UPS devices, enabling remote status tracking and control.
- Implemented features such as device on/off control, alarm monitoring, and live status updates.
- Utilized JavaScript, WebSocket, Python, and MySQL to manage real-time data flow.
- Enhanced documentation skills by creating project documentation for both requirements and usage.
- Contributed to the R&D team's efforts in improving IoT-based power management solutions.
